

# TABLETOP

## Description

---

New type table model jelly spraying machine. Unique closed heating system. This machine is constructed entirely in the context of the hygienic HACCP norms. The machine has no internal container, being especially suitable for processing of jelly directly from the Bag in Box. The spray gun is no longer suspended in the water but rather electrically heated. The machine can also be optionally supplied with a stainless steel container that can be placed on top of the machine when jelly from the Bag in Box is not used.

**Can be connected to Bag in Box Filling capacity optional container: 7 Litre Electrically heated Hot Hose. Voltage: 220/240 Volt 50/60 Hz Other voltages available on request Capacity: heating capacity 2000 Watt Dimensions: 340 x 250 x 490 mm (LxWxH) Weight: 24 KG / Weight stainless steel container: 3 KG**
